Manufacturer | Exporter | Supplier

Technical and Mechanical Design instruments

Making a Accurate Architecture...

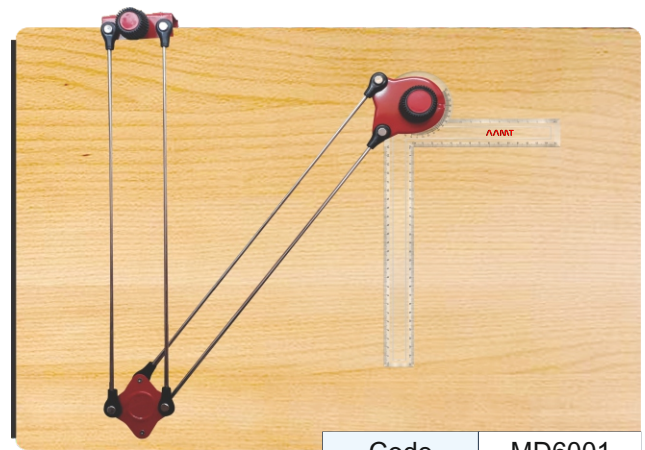

Description :

We provide a range of advanced and accurate Mini Drafting Machines available in a standard length of 16 inches. The drafting machine can be manufactured with both brass and aluminum clamp. These are primarily used in major construction or civil engineering projects for preparing drawings and topographical maps. Engineers, surveyors and architects use drafting machine to illustrate in scientific details using drawings, rough sketches and calculations.

Features :

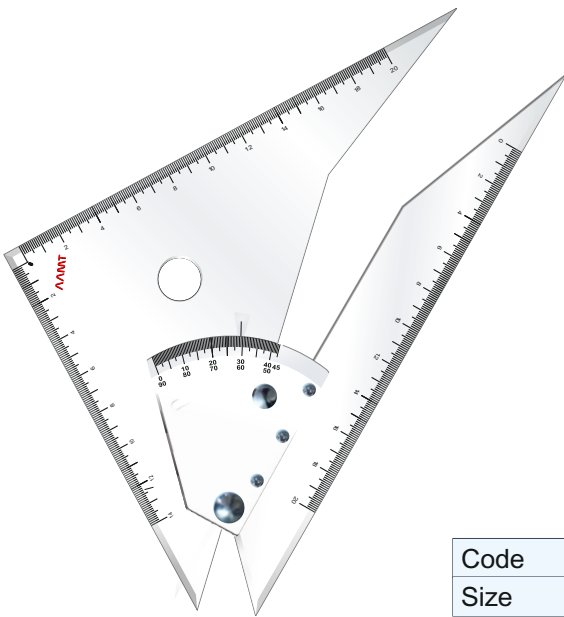

- Sturdy light - weight construction.
- Chrome plated bright bar protects against corrosion.
- Easy readability of scale.
- Cover maximum area on the board.
- Handy portable packing.
- Availability of spares.
- Affordable price.

Mini Drafting Machines

Code	MD6001
Size	16"

Adjustable Set Square

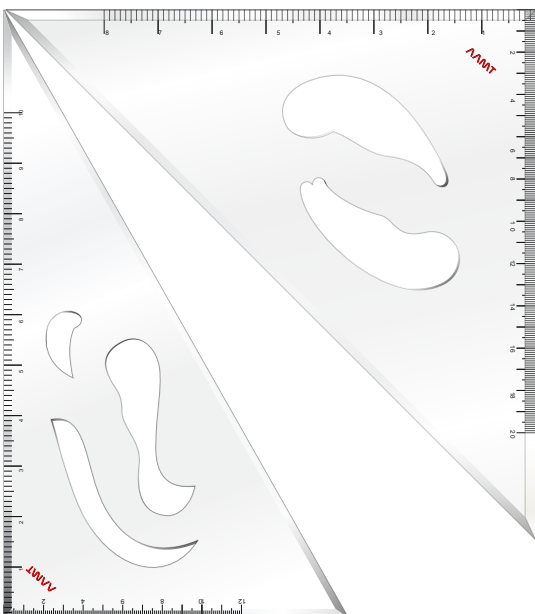

Description: Adjustable Set Square (45°) is a versatile tool. Although it is a 45° Set Square, one side of the triangle is adjustable, so it combines the functions of set squares and a protractor. It can be adjusted and set to any angle between 0° and 90°.

Features:

- Made from 3.0 mm virgin transparent acrylic sheet.
- Provided with Inking Groove.
- Integrated protector.
- Precision 0.5 degree scale.
- Simply tighten screw to lock into position.
- Beveled edges.
- With and Without Engraving number and marking.
- It is individually packed in canvas cover.

Code	ASS1001	ASS1002	ASS1003	ASS1004	ASS1005
Size	150 mm	200 mm	250 mm	300 mm	350 mm

Set Square

Description :

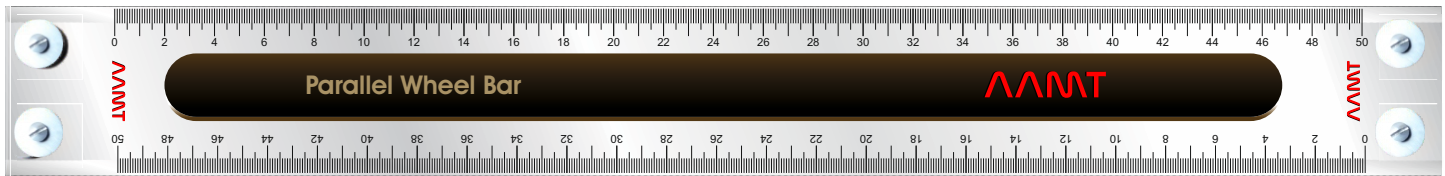

Set square or triangle is an object used in engineering and technical drawing, with the aim of providing a straightedge at a right angle or other particular planar angle to a baseline.

These set squares come in two usual forms, both right triangles one with 90-45-45 degree angles, the other with 30-60-90 degree angles.

Features :

- Made from 3.0 mm virgin transparent acrylic sheet.
- Beveled edges.
- Engraving number and marking
- It is individually packed in cover
- Packing : 10 sets in a printed box

Code	SS4001	SS4002	SS4003
Size	8"x10"	10"x12"	12"x14"

Description :

It is a drafting instrument used by navigator to draw parallel line on chart. It has an adjustable drawing-head with rules attached to a protector scale.

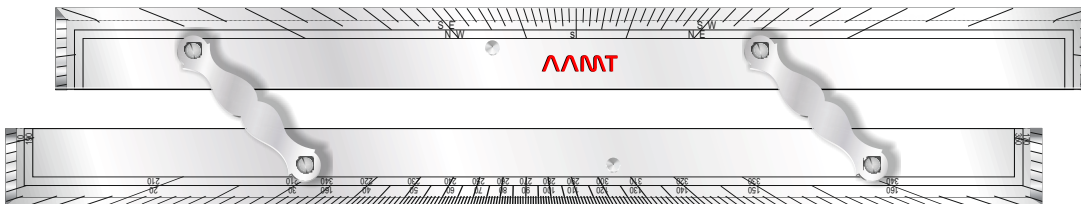

The Adjustable angle between the rulers allow the lines to be drawn in varying accurate angle.

Parallel Wheel Bar

Features :

- Made from 5.0 mm virgin transparent acrylic sheet.
- Provided with Inking Groove.
- Beveled edges.
- Engraving number and marking.
- Four brass pulley.
- Plastic clamp and Nylon wire.
- It is individually packed in cover

Code	PWB2001	PWB2002	PWB2003
Size	600 mm	800 mm	1040 mm

Parallel Bar

Description :

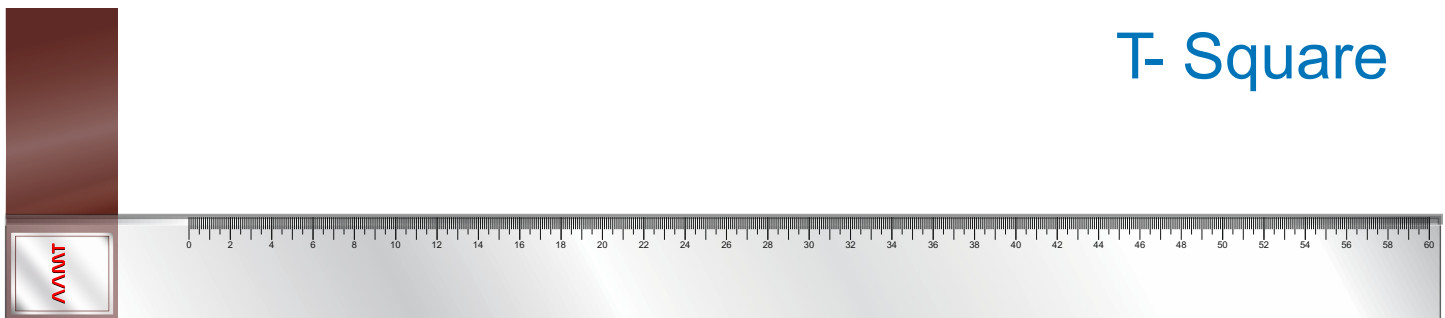

Parallel Bar are a drafting instrument used by navigators to draw parallel lines on charts. The tool consists of two straight edges joined by two arms which allow them to move closer or further away while always remaining parallel to each other.

Parallel ruler is used to determine the direction of a course plotted on a chart. The ruler is walked from the course line to the nearest compass rose. The course heading can then be determined.

Features :

The Parallel Bar is divided with protractor markings (double reading) and compass points. The Parallel Bar is made from 5 mm virgin transparent acrylic sheet and beveled on all four edges, engraving number & marking with solid Brass links. Solid Brass arms and handles. It's individually packed in cover.

Code	PB9001	PB9002
Size	24"	21"

T- Square

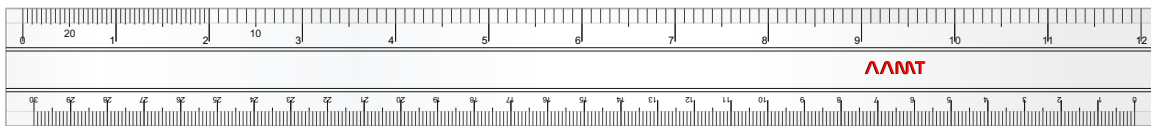

Description :

T-square is a technical drawing instrument used by draftsmen primarily as a guide for drawing horizontal lines on a drafting table. It may also guide a set square to draw vertical or diagonal lines.

Features :

- Made from 5.0 mm virgin transparent acrylic sheet.
- Provided with Inking Groove.
- Bevelled edges.
- Engraving number and marking.
- Thicker smoky head
- It is individually packed in flannel cloth bag.

Code	TS3001	TS3002	TS3003
Size	600 mm	800 mm	1040 mm

Scale

Features :

Made from 3.0 mm virgin transparent acrylic sheet.
Beveled edges.
Engraving number and marking.
It is packed in 10 Set per Box.

Code	S8001	S8002
Size	12" x 1.25"	12" x 2"

Pine Wood Drawing Board

Description :

It is lightweight and portable that providing the perfect surface for painting and drawing techniques. It is great for tabletop and ease to simply work put on your lap.

This softwood drawing board is air-seasoned to minimize bending. It has been polished to give extra smooth drawing surface.

Code	DW5001	DW5002	DW5003	DW5004
Size	12"x18"x16mm	16"x23"x16mm	23"x32"x16mm	30"x42"x16mm

Special size can be made as per requirements

Drawing Instrument Set

Description :

Drawing Instrument Box Contains, Half set compass complete with pen, pencil and extension bar, Hair spring divider, Rotating compass with ink and pencil point, Set of spring bows, Reversible Spring bow having ink and pencil point, pricker Drawing pen shifting nib, Drawing pen, plane nib, metallic handle screw driver, lead case.

Code	DIS7001	DIS7002	DIS7003
Size	5 pices	12 Pices	17 Pices

A A Manufacturing And Traders established in 2019, is a reputed name in manufacturing , Supply of Technical Drawing and Machanical Design instrument products.

Our Main focus is on consistently maintaining high quality, accuracy and flawlessness in the manufactured instruments. From last few decades we are delivering wide range of products in Indian market at competitive price without any compromising in quality. We are utilizing the knowledge of founder members of company to manage the entire manufacturing cycle.

We are currently well present in North India market and expanding supply chain in East, West and South India. We are supplying products to distributors, engineering institutes, marine institutes and retail stores.
